**C K Enterprises, Inc., Partners With PDQ Manufacturing  
As Equipment Distributor for Eastern Kansas and Western Missouri**

**De Pere, WI – May 31, 2013** – PDQ Manufacturing, Inc., an industry-leading manufacturer of in-bay automatic vehicle wash systems, is pleased to announce the appointment of C K Enterprises, Inc., as a new distributor of all PDQ vehicle-wash product lines for the markets of Eastern Kansas and Western Missouri. Headquartered in Lee’s Summit, MO, C K Enterprises has been manufacturing chemical products and supplying wash equipment for the car-care industry since its founding in 1981.

Charles Kunkel, President of C K Enterprises, said of the appointment: “We are very excited to have the opportunity to represent PDQ, the top line of in-bay automatic car washes. At C K Enterprises, our motto is ‘C K Services Satisfies,’ and this new partnership with PDQ will help satisfy our car wash customers’ needs. We look forward to a long and mutually-beneficial relationship!”

From its 80,000-square-foot manufacturing facility, C K Enterprises produces more than 700 chemical products. In its liquid-chemical department, C K Enterprises utilizes nine blending tanks with a capacity of 3,000 gallons each. This allows the company to blend approximately 68,000 gallons of product per week, with the ability to fill containers ranging in size from 16 ounces to 330 gallons, along with filling tanker trucks for product shipment. As a supplier of PDQ vehicle-wash equipment, C K Enterprises will work directly with its customer base to design wash systems that meet their specific needs.

“We are extremely pleased to be able to form a new partnership with C K Enterprises in the key territory of Eastern Kansas and Western Missouri,” said Gerry Hanrahan, Senior Vice President of Sales for PDQ. “For more than 30 years, C K Enterprises had identified and answered the needs of the car-care industry in this region and we are confident that the combination of their expertise in the area, along with the quality and proven performance of PDQ vehicle-wash systems, will lead to a fruitful long-term relationship between our companies.”
