Wisconsin Governor Visits PDQ Facility To Put Focus On Manufacturing Growth

De Pere, WI – January 31, 2014 – [PDQ Manufacturing, Inc.](http://www.pdqinc.com), an industry-leading manufacturer of in-bay automatic vehicle wash systems, was a recent stop on Wisconsin Governor Scott Walker’s Blueprint For Prosperity Tour. Walker visited PDQ after announcing the state’s \$911 million surplus and the intention to direct some of those funds to train skilled workers in great manufacturing jobs at facilities like PDQ.

At the PDQ plant, Walker told workers that the surplus was generated by a stronger-than-expected economic recovery. “Wisconsin’s manufacturing job growth is strong, and thanks to companies like PDQ Manufacturing, it’s getting stronger,” Walker said.

“We are honored that Governor Walker choose our facility here at PDQ to visit and discuss the points for his Blueprint For Prosperity,” said Mike Savignac, President of PDQ. “I believe PDQ represents the type of commitment to manufacturing that the people of Wisconsin can call their own. We are very proud of our products and the workers who dedicate themselves to creating those products every day.”

Wisconsin Governor Scott Walker addresses PDQ employees at its manufacturing facility in De Pere, WI.

For the past 30 years, PDQ has provided the car wash industry with cutting-edge technological advances in car wash equipment and car wash systems, including the first contouring arch and the Virtual Treadle. PDQ is the industry leader in in-bay automatic wash systems with its [ProTouch® ICON](#) and [ProTouch® Tandem](#) brands. PDQ’s [LaserWash®](#) touchless wash systems offer customers outstanding results in many variations. PDQ also manufactures related equipment such as dryers, customer manager systems, loyalty programs and water pretreatment operations.
