

# Access<sup>®</sup> AMTT N SERIES RETROFIT KIT

**Transform your old Ryko<sup>®</sup> AMTT entry station into a new, more user friendly, PDQ Access N Series unit with this convenient and easy to install retrofit kit.**

Save time and money when upgrading to a PDQ Access N Series unit. Reuse your existing stainless steel AMTT cabinet and replace only the door panel and internal components. The Access AMTT N Series Retrofit kit provides the same innovative features and functionality as our standard Access N Series units, including interaction with WALs, Cortex, and POS devices.

The Access AMTT N Series Retrofit kit includes a new front door which completely replaces the existing panel. The new door bolts to the existing hinge mount and comes preloaded with a full color graphics display, keypad, printer, communication board and card reader. In addition to the new door, an electronics panel and new speaker are included, which easily bolt to the inside of the existing cabinet and post for a simple and efficient installation.

Quick and easy to install, the Access AMTT N Series Retrofit kit saves money by reusing the existing stainless steel cabinet, power, and electrical connections. The enhanced features of the N series, including remote programming and reporting, allow you to monitor your car wash performance, real-time, from any internet connection around the world.

## Features:
